

Climate Change

Table B6.1: Sector sensitivity matrix for prioritizing potential assessment sectors

	CO ₂ concentration	Δ sensitivity location	Δ precipitation sensitivity location	Δ sea level sensitivity location
Agriculture	+ Rural	+++ Hermel and heights of Akkar	+++ Hermel and heights of Akkar	+ Central coastal plain
Water	————	+++ Whole country	+++ Whole country	++ Coastal urban region (salinization)
Health	+++ Suburbs	++ Whole country	++ Whole country	+ Coastal zone
Tourism	————	++ Coastal activity snow sport	————	+ Coastal settlement

- +: Low sensitivity
- ++: Moderate sensitivity
- +++: High sensitivity
